DIRECTOR'S MESSAGE

As we conclude the academic year 2023-24, I am filled with immense pride and satisfaction to present our Annual Report. This year has been a remarkable journey, marked by a steadfast commitment to academic excellence, innovation, and holistic development.

Our institute has been privileged to host a distinguished array of experts from across the nation. Their invaluable insights have enriched our faculty and students, fostering a culture of knowledge sharing and lifelong learning. We are equally proud of our faculty members who have actively contributed to societal advancement, demonstrating their dedication beyond the classroom. The creativity and ingenuity of our students have been truly inspiring. Their innovative practices have pushed the boundaries of knowledge and problem-solving. The active participation of our students in sports and cultural activities has not only honed their skills but also fostered a sense of camaraderie and well-being. Our strategic partnerships with renowned industrial partners have further strengthened our commitment to industry-academia collaboration. The numerous training programs, workshops, and industrial visits have equipped our students with the necessary skills to excel in the dynamic and ever-evolving technological landscape.

We are delighted to share the outstanding placement records of our students, who have secured coveted positions in leading multinational corporations with attractive compensation packages. This achievement is a testament to the quality of education and training provided by our institute. The media coverage of our institute's activities throughout the year is a reflection of our significant contributions to the academic and societal spheres. It is a source of immense pride for us to see our efforts recognized and appreciated by the wider community. As we look forward to the future, we remain committed to our mission of providing world-class education and fostering holistic development. We will continue to strive for excellence, innovation, and social impact.

Thank you to all our stakeholders – faculty, staff, students, parents, and industry partners – for their unwavering support and contributions. Together, we have made the academic year 2023-24 a resounding success.

Password-Based ELECTRICAL APPLIANCE CONTROL

Fig. 31. Author's prototype

significantly reduces the complexity of both hardware and software, address and nationality of the applicant

The password is transmitted to a microcontroller unit.

32. When a switch is open, it provides a code of 0, when closed, it represents a code of 1.

In this system, the password is entered through a 4-bit binary code (0000 to 1111) using a switch 34 through 37. Based on this code the basic output of logic gates using IC1 through IC4 will generate a 4-bit binary code. This logic circuitry for password given by the input pins of relay driver IC 555N2000B and drives the relay. So the connected load will remain in on/off state, hence capable of controlling the load.

Construction and testing

After the circuit is made, the logic gates and relay are tested for proper functioning. A PCB design is done for the circuit, which is then tested by the author's prototype as per Fig. 31. The circuit code for assembly is a hexadecimal code

Fig. 32. Author's prototype

a general purpose PCB. To achieve the desired output of the password-based system, the password is entered through a 4-bit binary code (0000 to 1111) using a switch 34 through 37. If the code is incorrect, the load will remain in on/off state.

IC used as specific truth as a load. The other circuitry of the password-based system is designed with a 4-bit binary code to create a password-based system.

The password-based system offers a convenient and secure way to control the load. It is a simple and easy-to-use system that can be used in a variety of applications. The password-based system is a good choice for those who want to control their electrical appliances in a secure and convenient way.

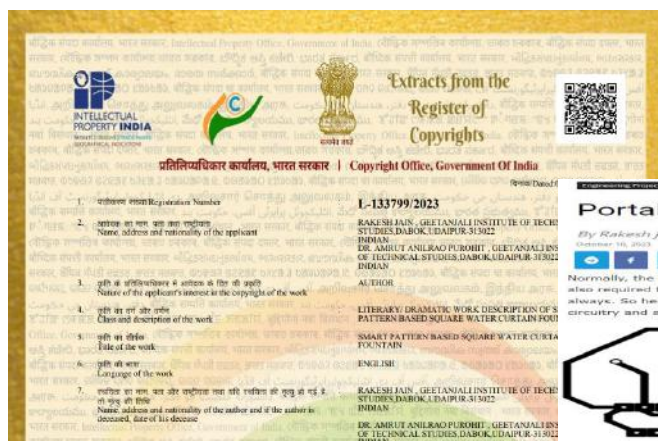

Conclusion

The password-based system is a good choice for those who want to control their electrical appliances in a secure and convenient way. It is a simple and easy-to-use system that can be used in a variety of applications. The password-based system is a good choice for those who want to control their electrical appliances in a secure and convenient way.

Team TechTitans , GITS Innovation Centre, were awarded 1st Runner up and received Rs 10000 Cash Prize at the GIT, Jaipur, at the 24-Hour "Code Fiesta Hackathon" among 108 teams across the Nation.

Dr. Amrut Anilrao Purohit, Head -ECE and Mr. Rakesh Jain, Assistant Professor, ECE awarded a Copyright on title “Smart Pattern Based Square Water Curtain Fountain” (Copyright Act 1957).

Mr. Rakesh Jain, Assistant Professor-ECE, project entitled "Portable Power Supply (Voltage Regulator)" published in October online issue of EFY.

Dr. Saurabh Tege, Assistant Professor, ME, awarded a Copyright on title “Regenerative Energy System for Solar Power Electrical System” on 23/10/2023

Mr. Denis Jangeed, Assistant Professor, CE Department awarded Certification of Appreciation for translating the file of course “Strength of Materials” offered by IIT KGP in Hindi Language.

GITS Team Bright Sparks secured first position and Won first prize of **Rs. 100000** in “SIH 2023” Hardware edition at Nodal centre Manav Rachna University, Faridabad, Haryana

Mr. Rakesh Jain, Assistant Professor, ECE and Dr. Amrut Anilrao Purohit, HOD, ECE were granted a design patent entitled "BLOOD SAMPLE ANALYSIS DEVICE" by Government of India on 07/12/2023.

Mr. Denis Jangeed, Assistant Professor, Department of Civil Engineering awarded Certificate of Appreciation for his outstanding performance as Campus Ambassador of Institute of Global Professionals.

GITS signed a MoU with **GHH India Mining & Tunnelling Equipment Pvt Ltd. a German Subsidiary on 6th December 2023** to conduct Core Engineering Hands-on Training for proper maintenance and failure analysis on mobile hydraulic machinery etc. to students and staff enrolled in but not limited to the fields of Mechanical engineering and Electrical engineering.

Dr. Vishal Jain, HoD H&S attended **MoU signing ceremony under the Unnat Bharat Abhiyan (UBA) and Center Of Research In Scheme And Policies (CRISP)** at IIT-Delhi by adopting 5 villages: Dabok, Bamaniya Khet, Merta, Moriya and Dhana on 07/12/2023.

Congratulations to Dr. N.S. Rathore, Director, for being awarded **Excellence in Engineering Award** & to Sh. BL Jangir, Finance Controller, on receiving the **Icon Award for Excellence in the category of Engineering Education** for the year 2023-24 on behalf of GITS. The awards were presented by Sh. Ashit Kukian, Chief Executive Officer and Ms. Madhurima Tuli (film actress and model) on 12th January 2024.

In a remarkable achievement, two innovative ideas have been selected in the prestigious India level **Women Hackathon 3.0**. The event, organized by the **Ministry of Micro, Small & Medium Enterprises (MSME) of the Government of India**, witnessed the brilliance of Rajasthan's **Sangeeta Choudhary** and **Dr. Prakriti Dixit Porwal**.

Dr. Sangeeta Choudhary's, Eco-Credits, is a revolutionary **plastic recycling management app and service**. With sustainability at its core, this app aims to streamline plastic recycling efforts, incentivizing individuals and businesses to contribute to a greener environment.

Dr. Prakriti Dixit Porwal's visionary concept, Fincustodio, promises to **redefine financial custodianship**. Leveraging advanced technology, this innovation aims to enhance financial security and transparency, ensuring trust and reliability in financial transactions.

Mr. Rakesh Jain, Assistant Professor, ECE granted a design patent registration by Govt. of India on 4 January, 2024.

Mr. Denis Jangeed, Asst. Prof., CE was a "College Representative" at Aakaar, IIT Bombay

GITS signed a Memorandum of Understanding (MoU) with L&T Edutech on 5th February 2024 to provide Employability Skill Training with the aim nurture proficient and employable engineers. Mr. Ashok Sahu, Head Sales, College Connect, L&T Edutech and Mr. Apurva Sinha, Manager, College Connect, L&T Edutech also gave a comprehensive overview of the training module, shedding light on the key features and the unique aspects of the training program.

Mr. Rakesh Jain, Assistant Professor, ECE and Mr. Kailash Suthar and Khushal Paliwal, ME, were granted a design patent entitled "ELECTRONIC SMART LIGHTING TOOL FOR FIRECRACKER" registration by Govt. of India on 2th February, 2024.

Team **ECO Thustler** clinched the top spot and declared the winners of the **National level Poornima Hackathon**. Their innovative design of an **Intelligent Milk Adulteration Detection Devices** has earned them a cash prize of **Rs.50,000** at **PCE, Jaipur** on **March 30, 2024**.

Team **Vision Vigil** secured the II Runner-Up Position for their ground breaking **AI Cameras Design**. They were awarded a cash prize of **Rs.30,000/-** at **PCE, Jaipur** on **March 30, 2024**.

Team **"Debugging Earth"** won the first runner-up at **Shankara Global Hackathon 3.0**, competing against 296 teams from across the country. They won a cash prize of **Rs 25,000/-**.

Hon. Director Dr. N.S. Rathore, GITS and Mr. Rakesh Jain, Assistant Professor, ECE, granted a design patent entitled “Smart and Compact Biomedical Refrigerator” registration by Govt. of India.

Mr. Rakesh Jain, Assistant Professor, ECE, received a certificate of appreciation by IIT Kharagpur, NPTEL, for the translation of the course Software Engineering on March 26, 2024.

Mr. Denis Jangeed (Assistant Professor, Department of Civil Engineering) received Certificate of Appreciation from IGEN ENERGATHON 2024 for participating as Speaker in Pre-Conference 01.

Mr. Jitendra Singh Chouhan, MBA IV Sem. student, secured 60% above in Quiz Contest on Commodity Derivative Market the PAN-India Contest.

A patent has been granted to the Dr. Sangeeta Choudhary and Mr. Denis Jangeed for an invention entitled 'CUSHIONED PILED RAFT FOUNDATION TO PROTECT BUILDING: NOVEL COMPOSITE PILED RAFT (NPCR).

GITS B.Tech CSE (AI) students, Piyush Choubisa, Hussain Hakimji Wala, and Mayur Choubisa filed and published patent on "Movement Finder Sensor

3rd INTERNATIONAL CONFERENCE ON MULTI-DISCIPLINARY APPLICATION & RESEARCH TECHNOLOGIES (ICMART-2024)
Organize By: Department of Computer Science and Engineering

ABOUT CONFERENCE - International Conference on Multi-Disciplinary Application & Research Technologies (ICMART-2024) will be held at Department of Computer Science and Engineering, GITS, Udaipur. The conference will provide a platform for technical exchanges within the research community and will encompass regular paper presentation sessions, invited talks, key note addresses and panel discussions. In addition, the participants will be treated to receptions and networking to establish new connections and foster everlasting friendship among fellow counterparts.

Conference: 17th-18th May 2024
Mode of Conference-Online/Offline

CALL FOR PAPERS - THIS IS A MULTI-DISCIPLINARY CONFERENCE OFFERING ALL THE FIELDS OF ENGINEERING AND TECHNOLOGIES (CSE, ECE, EE, ME, CIVIL).

Scope and Tracks:

- Track 1: Computer Science and Engineering
- Track 2: Electronics and Communication Engineering
- Track 3: Electrical Engineering
- Track 4: Mechanical Engineering
- Track 5: Civil Engineering
- Track 6: Computer Applications
