ABOUT GITS

Geetanjali Institute of Technical Studies, popularly known as GITS, was established by Geetanjali Education Society in the year 2002-03. The institute is recognized by AICTE and Govt of Rajasthan and is affiliated to Rajasthan Technical University, Kota to provide technical and professional education to the youth in general and also the tribal people of the region in particular.

GITS has created a niche in the world of technical and management innovation. Our standard progression of delivering concepts of management, technical skills and computer application is a benchmark in the education industry. Not only we deliver, we are also trouble-shooters when it comes to support talent. We do not judge our height by meters because we have never stopped growing, the fineness of our work has always increased. We are neither behind the time nor ahead we just stay to be honest, we are masters in understanding "The Order of the Day".

VISION

To achieve excellence in technical and management education through quality teaching and innovation.

MISSION

To provide an excellent learning environment to produce socially responsible and productive technical professionals.

Greetings from GITS, Udaipur!

The month of September was characterized by a surge in activities like expert lectures featuring industry stalwarts, government professionals, and experts from various fields. These sessions enriched our students' knowledge and provided valuable insights into their respective domains. Additionally, we organized a series of training sessions and workshops across various domains to complement the university curriculum to equip our students with practical skills and knowledge.

I also congratulate all students of Team-Debugging Earth on winning second position among 145 teams at the MNIT-Jaipur. Such achievements reflect the hard work and dedication of our students and validates the efforts of the institute and the effectiveness of our initiatives to nurture creativity and innovation among students.

The CDC department also kick-started its first module of Soft Skill training for the First year batch which saw exceptional participation of students. These sessions are essential in preparing our students for success in their future careers.

This academic session we aim to focus on the improving the Teaching-Learning process by encouraging a "learn-by-doing" approach. To support this, we have made significant improvements to our Centre for Innovation and Incubation and upgraded many of our computer labs with the latest equipment and systems. I encourage all students to explore and harness their individual potential by taking full advantage of the modern infrastructure and facilities we provide at the institute.

As we move forward, let us keep up the momentum and utilize all opportunities to create a dynamic and enriching educational environment.

Director, GITS

...aunque el gobierno de la ciudad de Bogotá, el más grande de Colombia, se ha comprometido a reducir la contaminación en un 20 por ciento en 2005, el problema persiste. En Bogotá, la contaminación del aire es la principal causa de enfermedades respiratorias y de muerte prematura. En 2002, la contaminación del aire causó la muerte de 1.200 personas en Bogotá, según el gobierno local. En 2003, el gobierno de Bogotá anunció un plan para reducir la contaminación del aire en un 20 por ciento en 2005. El plan incluye la implementación de medidas para reducir la contaminación del aire, como la restricción de la circulación de vehículos contaminantes y la promoción de la movilidad sostenible.
